

INTERNATIONAL SEARCH REPORT

International Application No
PCT/EP2005/003047

A. CLASSIFICATION OF SUBJECT MATTER
IPC 7 C08G59/14 C09D163/00

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 C08G C09D

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the International search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data, PAJ

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 4 686 248 A (BEKOOIJ ET AL) 11 August 1987 (1987-08-11) column 3, line 33 - column 4, line 59; claims	1-15
X	US 4 098 735 A (TOBIAS MICHAEL ALLAN) 4 July 1978 (1978-07-04) cited in the application claim 1; examples 1-8 column 3, line 10 - line 26	1-15

-/-

☒ Further documents are listed in the continuation of box C.

☒ Patent family members are listed in annex.

* Special categories of cited documents:

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the International filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the International filing date but later than the priority date claimed

- *T* later document published after the International filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- *Z* document member of the same patent family

Date of the actual completion of the International search

27 June 2005

Date of mailing of the International search report

Applicant
IMPERIAL CHEMICAL INDUSTRIES PLC

1. This opinion contains indications relating to the following items:

- ☒ Box No. I Basis of the opinion
- ☐ Box No. II Priority
- ☐ Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
- ☐ Box No. IV Lack of unity of invention
- ☐ Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
- ☐ Box No. VI Certain documents cited
- ☐ Box No. VII Certain defects in the international application
- ☐ Box No. VIII Certain observations on the international application

2. FURTHER ACTION

If a demand for international preliminary examination is made, this opinion will usually be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA"). However, this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of three months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

3. For further details, see notes to Form PCT/ISA/220.

**WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY**

International application No.
PCT/EP2005/003047

Box No. I Basis of the opinion

1. With regard to the **language**, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.
☐ This opinion has been established on the basis of a translation from the original language into the following language , which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).
2. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
 - a. type of material:
☐ a sequence listing
☐ table(s) related to the sequence listing
 - b. format of material:
☐ in written format
☐ in computer readable form
 - c. time of filing/furnishing:
☐ contained in the international application as filed.
☐ filed together with the international application in computer readable form.
☐ furnished subsequently to this Authority for the purposes of search.
3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
4. Additional comments:

Re Item V

**Reasoned statement with regard to novelty, inventive step or industrial applicability;
citations and explanations supporting such statement**

1. Reference is made to the following document/s/:

- D1: US-A-4 686 248 (BEKOOIJ ET AL) 11 August 1987 (1987-08-11)
D2: US-A-4 098 735 (TOBIAS MICHAEL ALLAN) 4 July 1978 (1978-07-04)
D3: DATABASE WPI Section Ch, Week 197718 Derwent Publications Ltd., London, GB;
Class A82, AN 1977-31576Y XP002299899 & JP 52 036132 A (HITACHI CHEM CO
LTD) 19 March 1977 (1977-03-19)

D1 discloses a crosslinkable coating composition comprising a crosslinker, e.g. an amino resin (col 5, lines 30-37) and a modified epoxy resin. The modified epoxy resin is prepared by reacting an epoxy resin with a monofunctional phenol and a dicarboxylic acid (claims)

D2 discloses a crosslinkable coating composition comprising a crosslinker, e.g. an amino resin (col 7, lines 27-36) and a modified epoxy resin. The modified epoxy resin is prepared by reacting an epoxy resin with a monocarboxylic acid and a dicarboxylic acid (claims)

D3 discloses a crosslinkable coating composition comprising a crosslinker, e.g. an amino resin and a modified epoxy resin. The modified epoxy resin is prepared by reacting an epoxy resin with a fatty acid and a polyvalent carboxylic acid (abstract)

2. The present application does not meet the criteria of Article 33(1) PCT, because firstly the subject-matter of claims 1,10-15 is not new in the sense of Article 33(2) PCT and secondly the subject-matter of the same claims does not involve an inventive step in the sense of Article 33(3) PCT.

3. Dependent claims 2-9 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step,

4. The present opinion on novelty and inventive step is based on the above documents.

**WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING
AUTHORITY (SEPARATE SHEET)**

International application No.

PCT/EP2005/003047

However it appears possible that in the regional phase a translation of the JP-A-52036132, abstracted in D3 may have to be consulted before coming to a final decision.

5. Claims 1-15 do meet the criteria of Article 33(1)(4) PCT, because its subject-matter is industrially applicable in the sense of Article 33(4) PCT.
